Flipkart Data Platform | Flipkart India
UI Engineer II
May 2021 - Present

McKinsey Digital Labs | McKinsey & Company
Digital Analyst (SDE II) - Fullstack Developer
Jan 2018 - April 2021

Projects

Professional Projects

- **COVID Testing App**

  Location: Netherlands

  - A customer facing app that allows the citizen to book slot, generate QR code, submit test samples, map samples to users and then update the test results online.

  Tech: ReactJS, NodeJS, expressJS, Docker
  Role: Full stack developer

- **Customer onboarding app for a bank**

  Location: Malaysia

  - Digitalizing the customer onboarding journey in a bank in various phases.
  - Launched one of the first fully digitalized customer journey in Malaysia.

  Tech: AngularJS, Java, SpringBoot
  Role: Backend developer

- **Online health insurance portal**

  Location: Singapore

  - Digitalizing the insurance plan selection, identity verification and document collection process, thus allowing customers to get health and life insurance completely online.
  - Launched one of the first fully digitalized insurance portal in South East Asia.

  Tech: ReactJS, NodeJS, Java
  Role: Frontend developer

- **Bid Management App**

  Location: India

  - Enable the client to manage tenders/bids through a Progressive Web App instead of excels, increasing the productivity.

  Tech: ReactJS, C#
  Role: Frontend developer

Projects

Personal Projects

- **JSON-Mocks**
  - A CLI that creates a mock REST server. One can simply dump the mock JSON responses with the required endpoint to get API endpoints up and running.
  - 600+ downloads through npm registry.

  Tech: ExpressJS, JavaScript

- **ipl-wallpaper**
  - npm package that fetches the current ipl table standings from official website, generates an image and sets it as the system wallpaper.
  - 400+ download through npm registry.

  Tech: NodeJS, Jimp

- **Excel cms system**
  - A simple framework that publishes endpoints for static pages. It fills in a predefined template with data that is managed through csv files. The endpoints are created based on the file names.

  Tech: GatsbyJS, NodeJS

- **Football Transfer Quiz**
  - A PWA which generates a quiz from random 15 questions. It also integrates with whatsapp, telegram and sms app to share the site link with friends.

  Tech: GatsbyJS, JavaScript

Education

2014-2018	**Bachelor of Technology** VIT University, Vellore Information Technology CGPA: 9.00
2014	**Higher Secondary School** **C.B.S.E. Board** Sir Padampat Singhania Education Centre, Kanpur 90.8%

Certifications

- Hackerrank **Problem Solving (Intermediate)** Certificate — September 2020
- Hackerrank **Problem Solving (Basic)** Certificate — December 2020
- Hackerrank **NodeJS (Intermediate)** Certificate — February 2021

Workshops

- **Speaker** at **React 101** workshop organized by RoboVITcs VIT. — October 2019
- **Speaker** at **JavaScript 101** workshop organized by RoboVITcs VIT. — April 2019
- **Speaker** at an in house office workshop. — December 2020
